Introduction of AAC Biathlon Classes

Eligibility: The International Biathlon classes are “All Level”, open to all dogs eligible to compete in other AAC qualifying events at any performance level, and in any category. No pre-requisite is required. FEO runs are allowed.

The AAC’s International Biathlon is uniquely designed to be an Agility AND a Jumpers with Weaves class of the highest performance level available. It therefore offers three ways to qualify:

Dogs who run BOTH the Agility and JWW rounds under SCT (Time PLUS Faults) will earn an INTERNATIONAL BIATHLON qualifier.

Dogs who run CLEAN under SCT in the Agility Round will earn a Standard Agility qualifier, at whatever level they are currently competing. Running without fault will be equivalent to a Standard qualifier at Masters/Advanced/Starters level.

Dogs who run CLEAN under SCT in the JWW Round will earn a Jumpers qualifier, at whatever level they are currently competing.

A dog who has faults in the Agility class may not earn a Standard qualifier and/or a dog who has faults in the JWW class may not earn a Jumpers qualifier; but that dog may still earn an International Biathlon qualifier if their faults are low enough to be able to run under (T+F) SCT for both rounds.

International Biathlon is recommended to be offered and entered as a combined entity over TWO rounds, (the Agility and JWW classes), where a Biathlon qualifier and Standard/Jumpers qualifiers can both be obtained. However, the classes may be offered or entered as individual rounds only, in which case the qualifiers would be limited to Standard/Jumpers qualifiers only. The two rounds can be run on one day or split over 2 or 3 days.

In trials where only 1 round is offered, or only 1 round is entered by the competitor there is only the possibility of obtaining the Standard or Jumpers level qualifier. There are no 0.5 Biathlon qualifiers.

Scoring

Because one of the goals of the Biathlon stream is to promote speed and intensity, the scoring for the International Biathlon classes will be scored as Time PLUS Faults. Faults will be judged based on the Regional/National scoring guidelines and then converted to seconds, to be added to the course time. In order to earn an International Biathlon qualifier a dog must run under the SCT after their time and faults have been combined, in both the Biathlon Jumpers AND the Biathlon Agility rounds.

At the same time, the scoring for the Individual rounds will be scored as Faults first then time, for both the Individual Jumping and Individual Standard qualifiers. For Jumping and Agility qualifiers the runs must have No faults and be under SCT to earn a qualifier. Agility Rocks will be able to automatically support this dual scoring for qualifiers, with the scorekeeper only inputting the faults and time, there will be no change for judging/inputting scores.
